

Six Reasons to Give to Child Care Resource

- 1. When you support Child Care Resource, you help 7,000 children** in Chittenden County who are in full day, part time, after school, or summer child care programs.
- 2. Child care is a critical part of early development and education.** An estimated 63% of children aged 0-5 are in non-parental care every week.
- 3. 75% of Child Care Resource clients are low and moderate income families.** We help all children, regardless of their financial circumstance.
- 4. We are the regional center for developing the child care workforce.** We offer a year-round schedule of classes, workshops and seminars. Your support keeps our fees low, and helps provide scholarships.
- 5. When child care works, so does Vermont.** Since 1984, Child Care Resource has helped more than 30,000 families and employees find and pay for child care.
- 6. Child Care Resource has strong community support.** People support CCR because they believe quality early education is the key to success in adulthood. National research shows this to be true. Please join us in our mission.

We work toward the day when:

- All children have quality child care which fully supports their needs.
- All parents and professionals who care for and educate our children have the knowledge, skills, and resources to do their best.
- Every community fully embraces caring for children and the child care profession as an integral part of our economy and society.”
