

Child Care Resource

Uniting with our Community to Connect Families to High Quality Early Child Care & Education

May 2018

Dear

Vermont has a critical shortage of high-quality, affordable early care programs and increasingly Chittenden County families are struggling to locate and pay for child care. Child Care Resource is being relied on more than ever before. Please consider a donation today!

"I feel like CCR is the place I can go to for help or to get my questions answered. I have established relationships with the staff due to being in the child care field for years. I don't know where else I would go for help."

CCR is here! We talk with families and child care providers, search for quality child care, assist families in the processing of financial assistance paperwork, and go on-site to consult with providers. In 2017, CCR staff searched for child care for more than 1,100 children and processed more than 2,200 financial assistance applications.

"Without CCR we would not be able to host a food program which currently benefits 68 children in our center every day."

Once in care, we help to feed children by participating in the federal Child and Adult Care Food Program, which enables more than 1,500 children to eat nutritious meals every day in Addison, Chittenden, Franklin/Grand Isle, and Windham counties.

Child Care Resource is just a phone call away for all families.

Please consider a generous donation this spring!

Thank you for your support,

CCR Staff and Board
